Do not forget to check the Club browser site for more details of events and to book your place on any of the cruises.

COMMODORES' CORNER

We had an interesting guest speaker at the beginning of May, Phil Read talking about the BSS. It was a good reminder for all boat owners to think safety whether you are on your boat or away from it, especially if you have gas on board. Regular checks and installing various gas monitors can help save lives!

Most boat owners accumulate a lot of bits and bobs that need to be kept until they will be needed (sometimes many years hence!) To free up some space, let us know how you feel about holding a Club boat jumble where members/guests can bring their surplus parts and sell/exchange with other boat owners. It's only an idea for now but with enough support we can make it a reality.

Most boats need a good clean after the winter weather, let us know what products you use to get the best shine!

Where will you be cruising to this year? Let us know your plans and what is your favourite go-to place.

The top replies will find their way into Boaters Banter, an area where your advice, reports etc will be passed on to our members. Send your contributions to, mike.BWBC@gmail.com. Cut off date for next issue is 15 June.

BOATERS BANTER

For a few days away, I like to cruise to Kirkstead Bridge, you can usually find a free mooring space. Here you have access to Woodhall Spa which is an interesting village to explore. Independent shops, good restaurants and the Kinema for an old-fashioned trip to see a film. Walk to see the remains of the abbey or hop a bus for a trip to Boston. Lorenzo's and Tea House in the Woods are amongst the many good restaurants.

I find Starbrite Black Streak Remover excellent when cleaning outside of boat. Use on those areas where there has been some rubbing or water-run staining. It is not cheap, but you only need to use a small amount.
